Seminar

Materials Science & Engineering

Presents:

Alan Boardman

**Director Engineering & Manufacturing, Interim
Regulatory Affairs, Maxtec Inc.
Salt Lake City, UT**

**“Material Selection for
‘Premiere O2 Solutions’”**

Medical device product development case studies that show the impact of proper and improper material selection. Factors for consideration and understanding the environments that a product will be exposed to in its life cycle. Material selection for compliance with 93/42/EC medical device directive, ISO 13485, and CFR 281.

Wednesday August 26, 2009

4:10-5:00 p.m.
